Misty Lavertu Funnel Strategy

Decision Filter Lead Magnet -> Momentum Sprint Challenge

Client-ready implementation plan with paid ads integration

Prepared: January 18, 2026

Executive Summary

This funnel converts cold attention into proof-based momentum using a two-step ladder: (1) a free Decision Filter to create clarity and a clean commitment, then (2) a paid 7-day Momentum Sprint to install follow-through through daily action and evidence tracking.

Assets

Lead Magnet	The Say YES Decision Filter (PDF).
Paid Offer	The Momentum Sprint (7-day challenge) workbook (PDF).
Challenge tools (buyers)	Momentum Sprint Tracker (PDF) + 7 Daily Sheets (PDF).
Core pages	Opt-in landing + thank-you page; Sprint sales page + checkout + confirmation.
Tracking	Meta Pixel (Lead, ViewContent, InitiateCheckout, Purchase) + UTMs. Optional: CAPI.

Funnel Paths

- Path A (cold): Ads/organic -> Decision Filter opt-in -> nurture -> Sprint purchase -> challenge -> next step.
- Path B (warm): Retargeting/organic -> Sprint sales page -> purchase -> challenge -> next step.
- Path C (non-opt-in retarget): Opt-in page visitors who did not subscribe -> retarget to Decision Filter (runway) or Sprint (launch week).

Timeline Overview

This timeline assumes a 14-day runway, a 7-day challenge, and a 3-day post-challenge conversion window. You can stretch or compress the runway without changing the sequence.

Window	Primary objective	Key outputs	Primary channels
Days -14 to -8	Lead Magnet acquisition	Decision Filter opt-ins; pixel audiences; baseline nurture	Organic + Meta cold ads
Days -14 to -6	Nurture + pre-frame	Lead magnet delivery; decision clarity; pre-frame Sprint	Email + Stories
Days -7 to -1	Sprint launch	Sales page live; launch emails; retargeting; cart close	Email + Organic + Meta retargeting
Day 0	Buyer onboarding	Workbook + Tracker delivery; Decision Filter Day 0 setup	Email + Community
Days 1-7	Challenge delivery	Daily Sheets; daily posts; evidence tracking; live	Email + Community + Live

		calls (optional)	
Days 7-10	Ascension / next step	Graduation; testimonials; 72-hour offer window	Email + Meta retargeting

Paid Ads Integration (Meta: Instagram + Facebook)

The ads strategy uses a two-step ladder: (1) acquire qualified leads with the Decision Filter, then (2) convert warm traffic to the Momentum Sprint via retargeting. Messaging stays consistent: clarity and decision first; then momentum installation.

Tracking prerequisites

- Meta Pixel installed on: lead magnet landing page, thank-you page (Lead), Sprint sales page (ViewContent), checkout (InitiateCheckout), purchase confirmation (Purchase).
- UTM parameters on every ad link (source, medium, campaign).
- Recommended: Conversions API (CAPI) for better attribution and lower data loss.

Campaign architecture

Campaign	Objective	Audience	Creative angles	When	Budget share
C1 - Decision Filter Acquisition	Leads	Cold interests + lookalikes	Decision-drag pain; standards/authority; 24-hour move	Days -14 to -8 (and always-on)	60-70%
C2 - Momentum Sprint Launch Retarget	Purchases	Leads + page visitors + engagers	Not motivation - installation; what you do daily; objections	Days -7 to -1	25-35%
C3 - Post-Challenge Ascension	Leads or purchases	Sprint buyers + sales page visitors	Keep momentum; build structure; next-step invite	Days 7-10	5-10%

Organic Social Plan

Organic content supports paid ads by building trust and warming audiences. The goal is not volume of posts - it is consistent repetition of the same mechanism so people self-identify.

Runway (Days -14 to -8): market the Decision Filter

- Reels: 3 per week (15-30 sec).
- Stories: daily (5-7 frames).
- Optional: 2 feed posts per week (carousel or short caption).
- CTA: 'DM FILTER' or link in bio to the Decision Filter opt-in.

Launch week (Days -7 to -1): market the Momentum Sprint

- Reels: 4 total across the week (launch, objections, what you do daily, last call).

- Stories: daily (teach 1 concept, show the tools, invite).
- One Live training (optional but high converting): 'Why you're stuck isn't time - it's renegotiation and no system.'
- CTA: 'DM SPRINT' or sales page link.

CTA logic (prevents confusion)

- Cold audience: push the Decision Filter.
- Warm audience (watching stories, email list, engagers): push the Momentum Sprint.
- Bio link order during launch: Button 1 - Momentum Sprint; Button 2 - Decision Filter.

Email Plan

Email is the conversion backbone. Use simple, direct subject lines and consistent calls-to-action.

Lead Magnet delivery + nurture (7 emails)

Send	Subject (draft)	Purpose	CTA
Immediately	Your Decision Filter is here	Deliver PDF; instruct them to use it today	Reply with the decision you're circling
Day -13	The real reason you won't decide	Name decision-drag; normalize; raise standards	Run the filter on one decision
Day -12	The 24-hour rule	Teach first move within 24 hours	Take the smallest irreversible step
Day -11	Stop renegotiating with yourself	Close the loop; decide once	Write your decision somewhere visible
Day -10	Clarity isn't your problem	Bridge into Sprint: clarity without execution keeps you stuck	Watch for a 7-day Sprint invite
Day -9	You need a container for momentum	Pre-frame Sprint as installation, not motivation	Join the waitlist / interest link
Day -8	Details tomorrow	Warm-up for launch	Be ready - doors open

Challenge launch emails (open -> close)

- Day -7: Doors open (announce offer + link).
- Day -6: What it is (not motivation - installation) + what you get (workbook, tracker, daily sheets).
- Day -5: Objections (time, consistency, 'I've tried before').
- Day -3: What you do daily (one YES move + evidence tracking).
- Day -2: Who it's for / not for.
- Day -1: Last call (factual close time).

Challenge delivery emails

- Purchase confirmation: deliver workbook + Tracker; include logistics and Day 0 setup instructions.
- Day 0 email: Decision Filter pre-work + fill in Tracker.
- Days 1-7: send the Daily Sheet each morning + one short instruction.

- Day 7 graduation: celebrate, collect wins, and preview next step.

Post-challenge offer window (72 hours)

- Day 8: Next step opens (one clear CTA).
- Day 9: Objection handler + clarity.
- Day 10: Close (factual deadline).

Challenge Delivery Operations

Day 0 onboarding (where the Tracker appears)

- Deliver to buyers: Momentum Sprint workbook + Momentum Sprint Tracker PDF.
- Day 0 required pre-work: run the Decision Filter and choose ONE decision.
- Write the decision into the Tracker and commit to one smallest irreversible YES move.
- Post the Decision Line inside the community (or DM an accountability partner).

Days 1-7 daily flow (where the Daily Sheets appear)

- Each morning: send the Day X Daily Sheet (1 page).
- Participant completes the day's non-negotiable YES move and records evidence (actions, not outcomes).
- Participant posts: decision + YES move done + evidence + one-line reflection.
- Optional: Misty adds a short voice note or 3-5 minute video reinforcing the day's focus.

Support + engagement

- Recommended live calls: Day 1 kickoff and Day 6/7 identity lock-in.
- Daily comment prompts from Misty or a community manager to keep posts moving.
- Use pinned posts: Start Here, Daily Post Template, Daily Sheet link.

Testimonial capture (built into the sprint)

- Day 3: quick wins form (what evidence do you have already?).
- Day 7: graduation form (what changed in your standards, follow-through, and self-trust?).
- Ask for a screenshot/photo of the Tracker highlights for shareable proof.

Measurement & KPIs

Track these weekly during runway and daily during launch week.

Lead Magnet

- Landing page conversion rate (opt-ins / unique visitors).
- Cost per lead (CPL) from Meta acquisition campaign.
- Email open rate for the delivery email (Email #1).

Sprint launch

- Sales page view-to-purchase rate.
- Cost per purchase (Meta retargeting).
- Retargeting frequency (avoid fatigue; rotate creatives).

Challenge health (drives future launches)

- Day 1 participation rate.
- Day 7 completion rate.
- Number of testimonials collected (Day 3 + Day 7).

Roles & Responsibilities

Misty	Record ad creatives, lead daily challenge energy, host live calls (if used), provide voice notes/videos, and approve copy.
Operations/Project Manager	Own timeline, publish emails, schedule posts, manage community cadence, and keep links organized.
Ads Manager	Build campaigns, implement tracking, manage budgets, rotate creatives, and report weekly metrics.
Copy/Content	Landing page + sales page copy, email sequences, story scripts, and post templates.
Tech	Pixel/CAPI install, checkout events, integrations, UTM standards, and troubleshooting.

Implementation Checklist

Pre-launch (before Day -14)

- Finalize landing page + thank-you page (Decision Filter).
- Finalize sales page + checkout (Momentum Sprint).
- Install Meta Pixel and verify Lead/Purchase events.
- Prepare email automations (lead magnet delivery + nurture).
- Build the challenge hub (Start Here) and community structure.
- Prepare ad creatives (3 for lead magnet, 3 for Sprint).

Runway (Days -14 to -8)

- Launch Campaign C1 (Decision Filter acquisition).
- Post organic runway content daily (stories) + 3 reels per week.
- Monitor CPL, landing page conversion, and delivery email opens.

Launch week (Days -7 to -1)

- Switch bio link order (Sprint first, Filter second).

- Launch Campaign C2 (Sprint retargeting).
- Send launch email sequence (open, objections, last call).
- Post daily story sequences + 4 launch reels across the week.
- Confirm cart close time and schedule final reminders.

Delivery (Day 0 to Day 7)

- Day 0: deliver workbook + Tracker and require Decision Filter setup.
- Days 1-7: drip Daily Sheets each morning + enforce daily post template.
- Collect testimonials on Day 3 and Day 7.

Post-challenge (Days 7 to 10)

- Run graduation + collect proof screenshots.
- Launch the 72-hour next-step offer and Campaign C3 retargeting.
- Debrief metrics and save best-performing creatives for the next launch.

Appendix: Asset List

- Lead Magnet: The Say YES Decision Filter (PDF)
- Offer: The Momentum Sprint (PDF workbook)
- Buyer tools: Momentum Sprint Tracker (PDF) + Momentum Sprint Daily Sheets (PDF)
- Pages: Decision Filter landing page + thank-you page; Sprint sales page + checkout + confirmation

Compliance note: This funnel focuses on decision-making, momentum, leadership, and personal growth. Avoid income claims or promises of specific results in all marketing assets.
