A STRATEGIC RESOURCE BY MISTY LAVERTU

The MOMENTUM SPRINT

A decision-based sprint for women who operate by standard - never hesitation.

DECIDE. EXECUTE. BECOME.

WWW.MISTYLAVERTU.COM

HOW TO USE THIS SPRINT?

This is not a motivation challenge.
This is not a mindset reset.

This sprint is designed to
install a way of operating.

You will move through three phases:

- **Decide** - *End circling*
- **Execute** - *Build proof*
- **Become** - *Lock identity and standards*

Read. Apply. Move.
No perfection required.
No delay allowed.

PHASE: DECIDE

CORE TRUTH

If you're thinking about it, it already matters.
Clarity isn't missing - courage is.

Most people delay decisions because delay feels responsible.
But delay erodes self-trust.

A decision made once creates relief. A decision revisited creates friction.

TEACHING

A ***Decision Line*** is the moment you stop collecting information and start taking responsibility.
You do not need:

- **More time**
- **More reassurance**
- **More opinions**

You need ownership.

Stalling usually protects identity:

- **What if I'm wrong?**
- **What if this changes things?**
- **What if I disappoint someone?**

Crossing the Decision Line means choosing anyway.

INSTALLATION PRACTICE

1. Write the decision plainly (no future tense)

2. Ask:
   - ***Does delaying this lower my authority?***
   - ***Would I respect myself more if I acted now?***

3. If two answers are yes - the decision is made.

You cross the line.
No renegotiation.

DAY 2 - E | EXECUTE THE FIRST MOVE

PHASE: EXECUTE

CORE TRUTH

Confidence is not required for action.
Confidence is created by action.

Waiting to feel ready keeps people stuck indefinitely.

TEACHING

Momentum is mechanical, not emotional.

The first move tells your nervous system:
"We're doing this."

Execution creates:

- **Safety**
- **Evidence**
- **Self-trust**

The first move is not about doing it well.
It's about doing it at all.

INSTALLATION PRACTICE

- **Identify the smallest irreversible action**
- **Take it within 24 hours**
- **No refinement allowed**

Execution before explanation.

DAY 3 - S | STOP THE DELAYS

PHASE: EXECUTE

CORE TRUTH

Revisiting a decision is not responsibility.
It is resistance with better language.

TEACHING

Most delay comes from ***Execution Drag***:

- **"I'll do it once I have more energy."**
- **"I should research this more."**
- **"I'll start next week."**

These are not reasons.
They are exits.

Every delay trains your brain to trust hesitation over action.

INSTALLATION PRACTICE

1. Identify your personal delay pattern
2. Name it without judgment
3. Eliminate one delay today through action

You remove resistance by moving through it.

DAY 4 - M | MEASURE THE EVIDENCE

PHASE: EXECUTE

CORE TRUTH

Belief becomes stable when evidence is recorded.

TEACHING

Evidence is neutral.
It doesn't hype.
It doesn't shame.

Most people feel progress but never track it -
which keeps them emotionally dependent instead of grounded.

Evidence creates calm confidence.

WHAT COUNTS AS EVIDENCE

- **Actions taken**
- **Conversations completed**
- **Boundaries enforced**
- **Follow-through honored**

Not outcomes.
Movement.

INSTALLATION PRACTICE

- **Record executed actions daily**
- **Capture proof, not opinions**
- **Let facts replace emotion**

This is where belief becomes steady.

DAY 5 - 0 | OWN THE IDENTITY

PHASE: BECOME

CORE TRUTH

Identity is not declared . It is earned through behavior.

TEACHING

You do not hope your way into becoming someone new.
You act your way there.

Once you have evidence, you have permission to claim the identity.

This is the shift from:

- **Trying → Operating**
- **Proving → Embodying**
- **Waiting → Owning**

INSTALLATION PRACTICE

- **Name the identity your actions now support**
- **Speak from it**
- **Make decisions from it**

You don't ask who you're becoming.
You decide.

DAY 6 - V | VALIDATE THE STANDARD

PHASE: BECOME

CORE TRUTH

What you tolerate becomes your future.

TEACHING

Standards are not goals.
They are enforced behaviors.

Intensity fades.
Standards stay.

Your life reflects what you consistently allow.

INSTALLATION PRACTICE

- **Define one non-negotiable standard**
- **Remove one behavior that violates it**
- **Enforce it daily**

Identity becomes permanent through consistency.

DAY 7 - E | ESTABLISH THE RULE

PHASE: BECOME

CORE TRUTH

You don't need more motivation . You need a rule you follow.

TEACHING

Rules eliminate decision fatigue.
They preserve energy.
They create momentum automatically.

This is where the sprint becomes a system.

INSTALLATION PRACTICE

Create one personal YES MOVE Rule, such as:

- **"If I'm circling, I decide."**
- **"Action within 24 hours."**
- **"No revisiting decided things."**

This rule governs future decisions.

THE RESULT OF THIS SPRINT

This sprint installs:

- **Self-trust**
- **Authority**
- **Execution certainty**
- **Identity stability**

This is not motivation.This is a decision-based operating system.

FINAL LINE (BACK PAGE / CLOSE)

YES MOVE - Decide. Execute. Become.

This is how momentum is created.
This is how identity is built.
